Outstanding colour

- Proven Hi-Q LED print engine is energy efficient and has a small footprint. It's the same breakthrough print engine technology found in some of our higher-end graphics-arts devices.
- A print resolution of up to 600 x 600 x 4 dpi delivers an amazing 16 shades of colour per pixel. That means a wider colour range for more impressive business graphics.
- Xerox EA Eco toner technology delivers superior, crisp text and printed images whilst using a low fusing temperature to conserve electricity.

Easy in the office and easy on the network

- The main paper tray supports a wide range of custom media and sizes, from labels to card stock to envelopes. A convenient manual feed slot lets you feed single-sheet media and envelopes without opening and loading the paper tray.
- Easy installation onto the network and pre-loaded toner cartridges make this printer virtually plug-and-play.
- The front panel LCD display makes walkup functions and features an easy touch of a button.
- Super-quiet operation lets you keep your printer nearby for distraction-free convenience.
- Only four replacement items: the small, easy-to-load toner cartridges.

Productive performance

- Whether you choose USB or network connectivity, the Phaser 6010 printer supports your business documents requirements.
- Superior performance gets your jobs out fast, with print speeds as fast as 12 ppm for colour and 15 ppm for black and white.
- With a 384 MHz processor and 128 MB standard memory, the Phaser 6010 handles your daily workload – whatever you print.
